

DermTech International Test Results

MAN-O® and Glove Cote 720®/Garden Glove reduced irritation MORE than any other of the products DermTech has tested.

MAN-O® and Glove Cote 720®/Garden Glove formed a better barrier than other barrier creams on the market, including ivy protectants.

“DermTech International is a United States skin testing and research company recommended by Proctor & Gamble, The Andrew Jergens Co., and The University of Cincinnati Dermatological Department.”
